CASH ON DELIVERY.....

The play centres around Eric Swan who has been defrauding the DSS for two years by claiming benefit for an army of fictitious lodgers, all of whom suffer from a variety of ailments for which they can claim, and who have extended families with similar problems!

As the play begins, Eric decides that it is all getting too complicated but, as he tries to extricate himself by killing off his make-believe tenants, he just ends up being given more and more benefits - social comment here maybe?

Eric's lodger, Norman Bassett, doesn't know that that Eric is claiming benefits in his name and when the DSS Inspector Mr Jenkins turns up Norman gets sucked into Eric's web of deceit and, chaos ensues! There's lies, lies and more lies, people getting knocked out, men without their trousers, mistaken identities, cross-dressing and dead bodies.

Confused? You will be!
